green steps
OUTDOOR EXPERIENTIAL EDUCATION

ABOUT

PURPOSE

Green Steps aims to nurture responsible leaders of the future, and environmentally mindful citizens of the world!

PRINCIPLES

Deliver fun & interactive education.
Spread compassionate behavior.
Promote responsible practices.

VALUES

Sustainability

Compassion

Responsibility

VISION

A compassionate society with sustainably engaged citizens.

MISSION

Provide fun experiential education for children, families, and schools by building appreciation and respect for the environment through original outdoor activities.

CONNECT WITH NATURE

PRESENT CHALLENGES & CONSEQUENCES

- EDUCATION SYSTEM → Purely academic, overloaded schedule, no play time, no fun
- OVER-PROTECTION → Isolation, low socialization opportunities, lack of true friends
- ENVIRONMENTAL THREADS → Highly polluted urban areas, health safety issues
- TECHNOLOGY DEPENDENCE → Digital entertainment, low capacity of creativity
- INDIVIDUALISM → Single-child families, high competition for privileges
- MATERIALISM → High consumption, seeking happiness from objects, superficial emotions
- JOB MARKET COMPETITION → Focus on hard skills with KPI rather than values &soft skills

Environmental leadership for future change makers

Grow as whole individuals connected with the society and the natural environment.

Experience a wide diversity of interesting and challenging activities that inspire the will to understand the world while having fun.

Practice generosity, team work, responsibility and creativity in a positive and nurturing space.

Connect with Nature

CONCEPT

GREEN STEPS provides fun outdoor experiential education for children, families and schools by building appreciation and respect for the environment through original activities near Shanghai.

WHO PARTICIPATES

HOW	RESULTS
Learn life, social, and environmental skills.	Meaningful memories, lasting friendships.
Practice ethical behaviors and responsibility.	Integration in the community & CSR.
Contribute to the local community and environment.	Sense of belonging, fulfillment and gratitude.
Enjoy being an active learner.	Balanced development including: emotional, physical and psychologic areas.

Experiences

With Nature as the playground and laboratory, each program takes advantages of the seasonal conditions and the special environment where it is hosted. Participants discover in depth the natural processes that maintain the balance of the ecosystem and learn to interact with the Outdoors in fun and responsible ways.

CORE ELEMENTS

We focus on designing experiences that are valuable life lessons and positively impact in the development of each person's unique personality.

SAFETY

Get ready to help during an emergency. Build the confidence to assist someone using first aid and secondary care skills. Exploring the outdoors benefits from being ready for the unexpected.

OUTDOOR SKILLS

Learn specific skills to explore the great outdoors and interact with the wilderness in conscious and responsible ways. Practice orientation, camping, survival and first aid.

ECOLOGY & NATURAL SCIENCES

Explore the main dynamics of the ecosystem; in particular the interdepence between species and their environment, and the impacts resulting from human behaviour.

WELLNESS EDUCATION

Practice healthy habits to strength and maintain both mental and physical health on the long term, enabling to cope with life unexpected.

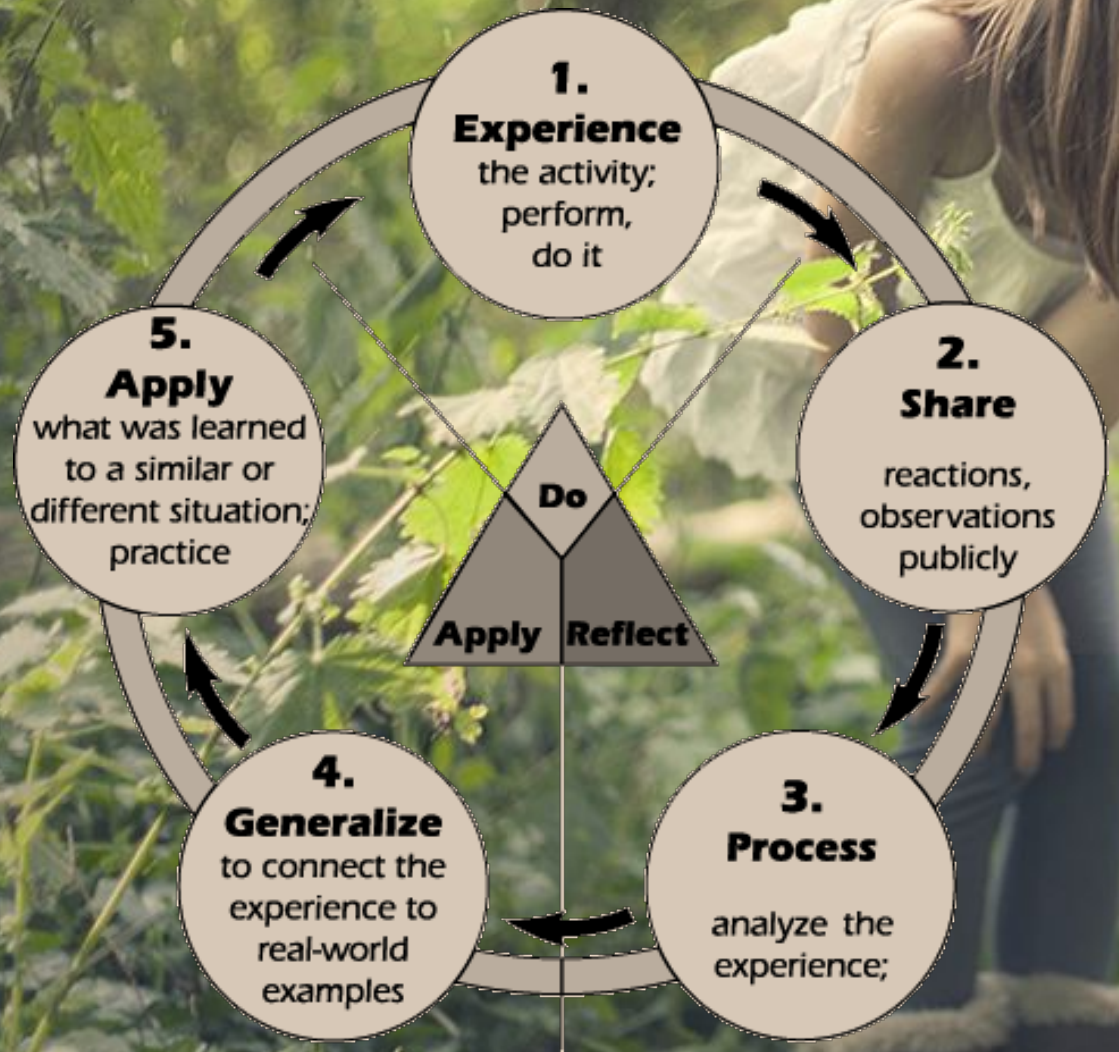
PERSONAL GROWTH

Develop leadership, communication, perspective, team work, problem solving, resilience, patience, perseverance, decision making, empathy, and compassion.

COMMUNITY SERVICE

Gain a sense of belonging and engage in solidarity projects to preserve the natural, cultural and historical legacy of local communities.

EXPERIENTIAL LEARNING METHOD



Tell me and I'll forget; show me and I may remember; involve me and I'll understand.
– Chinese Proverb

SAFETY POINTS

- Trained professional coaches
- Safety briefing & Emergency plan
- Risk assessment for each activity
- Onsite 1st Aid equipment
- Insurance coverage for the Activities

Ratio 2 teachers : 12 participants

1 Foreign coach

1 Chinese coach

While minimizing our impact in the environment, our programs are life-changing experiences, leaving lasting memories, true friendships and inspiration
