### Sino-Italy (Ningbo) Ecological Park

The Name of the Project	Sino-Italy (Ningbo) Ecological Park
The location of the Project	Coastal New City, the Economic Development Zone of Yuyao
Industry	Manufacturing, Business services, Educational training, and Ecological leisure
The Scale of the Project (The Total Investment)	
The Background and Construction Condition of Projcet	Yuyao, under the jurisdiction of Ningbo, Zhejiang Province, is the most developed district in the south of Yangtze River Delta. Yuyao Economic Development Zone has attracted numerous industries, including four pillar industries of Yuyao i.e., mechanical hardware, household appliances, plastic molds and textile composition and four emerging industries of Yuyao, i.e., new materials, new energy, new equipment manufacturing and electronic information. As the key zone for development in Zhejiang Province, Coastal New City enjoys its own location specific advantages: well-developed networks of high-speed railways and Expressway; adjacent to Port of Ningbo and Port of Shanghai; convenient access to four international airports
Preparation or Progress of the Project	In June 2014, with the joint witness of both Chinese and Italian Prime Ministers, the contract “Cooperation Agreement about Cooperatively Developing and Constructing China (Ningbo) Italy Industrial Park” was signed. China (Ningbo) Italy Industrial Park officially settled down in Coastal New City, the Economic Development Zone of Yuyao. In the morning of September 26th, 2014, the park was opened. On October 15th, 2014, the Chinese government and the Italian government signed “Memorandum of Understanding on Jointly Supporting to Construct China-Italy Ecological Park” in Rome, Italy, marking that China (Ningbo) Italy Industrial Park had officially become the national Sino-Italy (Ningbo) Ecological Park.
The Cooperation Intention or Negotiation Object	The cooperation intention is mainly focused in the areas of new equipment, biological manufacturing, medical instruments, and life sciences. Meantime other areas such as business service and financial service are also welcomed. By the new opportunity of the industrial cooperation between Italy and China, the project exerts

	the advantages of Italian enterprises in technology, talents and management etc, combines the industrial basis, resource endowments and location characteristics of Yuyao City, realizing the complementary advantages, to build a modern international industrial park.
Construction Scale and Content of the Project	Sino-Italy (Ningbo) Ecological Park has a total planning area of 40 square kilometers, with the first phase of 26 square kilometers and the second one of 14 square kilometers. The whole plan includes South Lake Urban Living Quarter, North Lake Ecological Residential Zones, Central Complex Islands, Energy Conversation & Environmental Protection Industry Park, R&D Innovation Park, Life and Health Industrial Park, and High-end Equipment Manufacturing Park.
Cooperative Modes and Content	Manufacturing, business services, educational training, and ecological leisure are the four core functions of the Ecological Park. Adhering to the developing and constructing idea of government guidance, intermediary bridges, enterprise dominant, market operation, mutual benefit and win-win result, it is targeted to build a world-class ecological demonstration area, and a new industrial urban district with friendly ecology, sustainable innovation, open humanity, fusion of the industry and city.
The Chinese side of the Project to Provide Cooperative Conditions	Perfect infrastructures and facilities; Comprehensive preferential policies in land, finance, human resources as well as other supporting policies; simplified administrative procedures
Brief Introduction of Project Investment Unit	Administrative Committee of Yuyao Economic Development Zone Yuyao Economic Development Zone has attracted numerous industries, thus Yuyao's economy is seemed to be driven by "eight carriages" formed by four pillar industries, i.e., mechanical hardware, household appliances, plastic molds and textile composition and four emerging industries, i.e., new materials, new energy, new equipment manufacturing and electronic information. In 2014, Yuyao Economic Development Zone achieved a total industrial output value of RMB 145.1 billion, with year-on-year growth of 9.36%, and currently has completely established multiple industrial bases including "Chinese Hardware Production Base", "Chinese Plastic Mold Production Base", "Chinese Small Household Appliances Production Base" and "Chinese Power Tools Production Base".
